**DETAILED ACTION**

***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sanger et al 2192817 in view of Sargis 4135788.

Sanger shows a reflective handlebar insert inserted in a vehicle handlebar comprising a hemispherical-shaped reflective cap(5) with a plurality of geometrically arranged facets(11) which extends beyond the end of the handlebar. Sanger does not show the cap to be supported by a cylindrical body with flexible circular fins which fit within the handlebar. However, Sargis shows a plastic support(16) for a reflective handlebar insert including such fins(28) which insert into a handlebar(12). It would have been obvious to the ordinarily skilled artisan at the time of invention to use the support of Sargis with the

reflective cap of Sanger in order to more securely fasten the cap to a handlebar.

**Conclusion**

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Thornton shows a hemispherical reflective device. Perret, Brown, Spector, and Cruze all show lighting or reflective devices inserted into a handlebar.
